

Informed Consent Form

I, _____, give consent to trial the use of Cannabidiol (CBD) for my condition(s).

I understand that CBD is a non-approved medication and that it's use is upon the discretion of the doctor I am consulting with. I have been advised of the use of the medication and have had the opportunity to ask questions and voice any concerns.

Why do I need to sign this?

CBD is a legal prescription medication. However, there are no medical conditions for which the government has approved it for in particular (as the scientific evidence is incomplete). There is evidence however that it could help improve several conditions and it is up to the doctor to decide if that is the case for you. We are using CBD on a case by case basis and it is a legal requirement that we inform you of the above.
